He had brought about a dozen chairs of his own manufacture to the city to sell on Wednesday, and all he had to show for his labor was a jug of whisky which he carried under his arm. He drank copiously of the liquor on the road, and when within three miles of home sat down on the ties to rest, with the jug between his feet and his head between his feet and his home of fifteen feet over an embankment. He was dead when found, but with the exception of bleeding profusely at the nose and ears, showed no signs of injury. THE steamer Mallie Ragon had one of the largest trips last Saturday that she has brought to our landing for a long time. She reshipped a quantity of to-bacco and other stuff at Bellaire and brought some six or eight hundred oil barrels to our city, the principal part of which came from Phillip Hanshumaker, of Matamoras.

A GENTLE HINT.—In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup or any disease of the Throat or Lungs, its success is simply wonderful as

Fall of the South Street Bridge Fall of the South Street Bridge.

PHILADELPHIA, February 9.—This morning one of the arches of the bridge over the Schuylkill river at South street fell in, carrying with it in rapid succession nine other arches and completely wrecking three hundred feet of the bridge. The portion which gave way rested on piles in a marsh on the western bank of the river, and this piling has been gradually sinking in the mud. A number of workmen were engaged in repairing a defective arch at the time of the accident, but they were warned in time and all escaped uninjured. The bridge was built of iron and granite and cost originally \$770,000. The loss by the accident to-day is about \$100,000.
